Independent Auditors' Report

Board of Directors
Crestview Water and Sanitation District
Denver, Colorado

We have audited the accompanying basic financial statements of Crestview Water and Sanitation District (the District) as of and for the years ended December 31, 2016 and 2015, which collectively comprise the District's basic financial statements as listed in the table of contents, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

400 South Colorado Boulevard, Suite 690 • Denver, Colorado 80246
303 733-3796 • FAX 303 733-6230 • www.pnacpa.com

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District as of December 31, 2016 and 2015, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other-Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 7 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The individual departmental schedules listed in the table of contents are presented for purpose of additional analysis and are not a required part of the basic financial statements. The individual departmental schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

OVERVIEW OF THE DISTRICT

This section of the Annual Financial Report for Crestview Water and Sanitation District (District) presents a discussion and analysis of the District's financial condition and operating results during the period from January 1, 2016 to December 31, 2016. It is provided as a narrative introduction and overview of the financial statements contained in the following Annual Financial Report and should be read in conjunction with the District's financial statements.

The Crestview Water and Sanitation District, formerly the Baker Metropolitan Water and Sanitation District, is a quasi-municipal corporation and a political subdivision of the State of Colorado organized and existing under and by the virtue of the laws of the State of Colorado. The District was established by Order and Decree of the District Court of Adams County, Colorado, June 30, 1949.

The District encompasses approximately four square miles (2,600 acres) largely in an unincorporated portion of southwest Adams County, and includes within its boundaries small portions of the cities of Arvada and Westminster.

The District was created for the purpose of providing water and sanitation service for the inhabitants of the District. The District, governed by a five-member board, operates the water and sanitary sewer systems pursuant to the laws of the State of Colorado, particularly Title 32, Article 1, C.R.S. 1973, as amended.

Water is provided to the District by Denver Water in accordance with Distributor Contract No. 236. The District serves approximately 4800 residential, commercial, industrial and public customer taps. The distribution system is operated and maintained by the District and encompasses approximately 51 miles of piping and 4 elevated storage tanks. Meters are read monthly for billing purposes.

Wastewater treatment for the District is performed by Metro Wastewater Reclamation District (Metro) pursuant to the terms and conditions of a perpetual contract between Crestview and Metro. The collection system is operated and maintained by the District, and encompasses approximately 56 miles of piping and one sewage lift station. The District serves approximately 5300 sanitary sewer residential, commercial, industrial, and public customers.

The District does not have any general obligation or other bond indebtedness. Capital projects, capital additions and equipment additions are financed from cash and cash equivalents designated for capital replacement and contingencies.

The District employs personnel to operate, maintain and repair the transmission and distribution system and wastewater collection system. The District owns, operates, and maintains, vehicles, equipment and supplies to accomplish these functions.

The District owns property and buildings to house a business office, maintenance headquarters, garages, elevated water storage tanks, sewage lift station and system operation stations.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – management's discussion and analysis, the basic financial statements, and supplementary information.

The financial statements include comparative data of assets, liabilities, deferred inflows of resources and changes in net position for the current fiscal reporting period (2016) and the prior fiscal reporting period (2015). Liabilities include current liabilities of accounts payable and accrued liabilities. Deferred inflows of resources include property taxes and other special assessments earned but levied for a subsequent period. Net position include capital assets and unrestricted assets designated for capital replacement, reserves for contingencies and unrestricted funds.

The departmental statements of revenues, expenses and changes in net position - proprietary fund compares the current fiscal reporting period (2016) and the prior fiscal reporting period (2015) and includes operating revenue, water and sewer sales, sale of supplies, inspections and miscellaneous revenue, also, operating expenses for water, sewer, and administrative and general. Water and sewer connection fees are included in non-operating revenue and expenses along with general property and specific ownership taxes, interest income, tax collection fees, and miscellaneous revenue.

The financial statements also include notes that explain some of the information in the financial statements and provide data that is more detailed. The statements are followed by a section of supplementary information that further explains and supports the information in the financial statements.

The financial statements provide both long-term and short-term information about the District's overall operating financial status. These statements explain how general expenditures were financed in the short term as well as what remains for future spending.

The financial statements report information about the District as a whole using the accrual method of accounting. The statement of net position includes all of the District's assets and liabilities.

The financial statements of the District are reported in one category. All of the District's basic activities are reported as Proprietary Fund activities. The operating revenues and expenses are from the activities of the District in providing water and sewer services to the community.

FINANCIAL HIGHLIGHTS

The District is in good financial position at the end of the reporting period. The District completed general and emergency repairs and maintenance to the water distribution and wastewater collections systems as well as restorative and remedial improvements to the systems from funds budgeted for those purposes. The reserves are sufficient to meet most any emergency repair or replacement need and will be further funded for future cost increases in parts and construction of water and sewer utility emergencies. The District maintains an adequate checking account balance to meet payroll, vendor, service and other obligations.

Generally, the District's financial position has remained steady from the previous year. However, the water distribution and wastewater collection systems continue to deteriorate with age and will require additional funding to address the replacement needs.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

CAPITAL ASSETS AND LONG TERM DEBT ACTIVITY

The District did not replace any water mains in 2016 but installed four potable water storage tank mixers and purchased 4,600 radio read transmitters to retro-fit the District's current meters. The District replaced one sanitary sewer main through pipe bursting and replaced eleven manholes.

The District purchased three 2016 Ford F-150 pick-up trucks.

A summary of changes in capital assets is provided in the financial statements, Note 3. Changes in infrastructure are also reported in the financial statements, Note 3, under capital assets.

The District is committed by contract to purchase potable water from Denver Water and to have collected wastewater processed by Metro Wastewater Reclamation District. A commitment to both is included in the financial statements, Note 4. The District began a five year lease on a printer/copier in 2016.

There have been no changes in credit rating or debt limitations that could affect the financing of planned facilities improvements or services and the District currently has no outstanding long term debt.

OTHER POTENTIALLY SIGNIFICANT MATTERS

The District was a party to an exclusion of 109 single family homes located in the Tennyson Park subdivision situated at the southwest corner of 64th Avenue and Tennyson Street. With the exclusion, the District will experience a minimal loss of tax revenue associated with these properties. These properties have been provided with water and sewer service by the City of Arvada since their construction in 2000.

CONTACTING THE DISTRICT'S ADMINISTRATIVE OFFICE

This financial report is designed to provide our constituents with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional information, contact the District's Administrative Office at:

CRESTVIEW WATER AND SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of Crestview Water and Sanitation District (District) conform to U.S. generally accepted accounting principles as applicable to governmental entities. The following summary of significant accounting policies is presented to assist the reader in evaluating the District's financial statements.

Financial Reporting Entity

The District was incorporated under the laws of the State of Colorado and operates in metropolitan Denver under an elected Board of Directors form of government. As required by U.S. generally accepted accounting principles, the financial statements of the reporting entity include those of the District (the primary government) which has no component units.

Basis of Presentation

The accounts of the District are organized on the basis of an enterprise fund. Enterprise funds are used to account for operations that are financed and operated in a manner similar to a private business enterprise.

The enterprise fund is reported using the economic resource measurement focus and the accrual basis of accounting, that is, revenue is recognized when it is earned and expenses are recognized when they are incurred.

Capital Assets

Expenditures of \$1,000 or more for capital assets are stated at cost when purchased or, when donated, at fair value on the date of the donation. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Costs incurred for repairs and maintenance are expensed as incurred.

Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Water wells	99 years
Buildings and building improvements	15-75 years
Lift stations, sewer collection, and water distribution systems	50-75 years
Machinery and equipment	3-20 years

Budget and Budgetary Accounting

An annual State prescribed budget is adopted even though it is not required for enterprise funds by U.S. generally accepted accounting principles. The statement of revenue and expenditures - budget and actual presents comparisons of the legally adopted budget with actual data on the budgetary basis. The actual data presented differs from U.S. generally accepted accounting principles and a reconciliation of the differences is shown on Note 7.

CRESTVIEW WATER AND SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property Taxes

Property taxes are not due and payable until after the assessment year has ended and are not included in the budget or statement of revenue, expenditures and changes in net position of the assessment year. Property taxes are initially recorded as deferred revenue in the year they are levied and measurable. The deferred property tax revenues are recorded as revenue in the year for which they were levied.

Property taxes are collected and remitted monthly to the District by Adams County, Colorado. The property tax calendar is detailed below:

District certifies mill levies to the county	December 15
Lien date	January 1
Collection dates	
First half	February 28
In full	April 30
Second half	June 15
Delinquent notices	August 1
Tax sale	Mid-November

Tax and Spending Limitations

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments. The amendment is complex and subject to judicial interpretation. The District is an enterprise fund receiving less than 10% of its revenue from taxes and, therefore, under the terms of the amendment is exempt from these limitations.

Income Tax

Corporate income tax liabilities are not recognized because the District is a non-profit quasi-municipality.

Inventories

Supply inventories are recorded at cost on the first-in-first-out method.

Cash Flows

For purposes of the statements of cash flows, the District considers all deposits with maturities of three months or less to be cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and volunteers and natural disasters. It carries commercial insurance coverage of these risks of loss. Claims have not exceeded coverage in any of the last three fiscal years.

CRESTVIEW WATER AND SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Operating/Non-Operating Revenues and Expenses

Operating revenues and expenses are those that result from providing water and wastewater services. Non-operating revenues and expenses include capital financing, investing and other activities not related to the provision of water and wastewater services.

NOTE 2 – CASH AND INVESTMENTS

The District maintains its investments and deposits with financial institutions in accordance with state statutes for the investment of public funds. All deposits are held at a single financial institution and are stated at cost. A summary of the District’s cash and investments are as follows:

	2016	2015
Checking accounts - interest bearing	\$ 10,523,701	\$ 8,398,698
Petty cash	600	600
	\$ 10,524,301	\$ 8,399,298

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. As of December 31, 2016, State regulatory commissioners have indicated that all financial institutions holding deposits for the District are eligible public depositories. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The fair value of the collateral must be at least equal to 102% of the uninsured deposits.

The Board of Directors have designated cash to fund future capital expenditures. Funds are transferred periodically from operating accounts. Major repairs and additions to capital assets will be paid for from this board-designated cash.

Interest Rate Risk – In accordance with its investment policy, the District manages its exposure to declines in fair value by limiting its investments to Certificates of Deposit with an original maturity date of twelve months or less.

Concentration of Credit Risk – It is the policy of the District to diversify its investment portfolio to eliminate risk of loss resulting from over concentration of assets in a specific maturity, a specific class, and specific issuer of securities. The District policy includes cash deposits in the total portfolio when determining concentration of investments.

NOTE 4 – COMMITMENTS

The District has made commitments to purchase water and sewer services and have been budgeted as follows for the year ending December 31, 2017:

Water purchases	\$ 2,407,495
Metro sewer charges	<u>1,351,440</u>
	<u>\$ 3,758,935</u>

CRESTVIEW WATER AND SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS

NOTE 5 – OPERATING LEASES

The District leases office equipment under operating lease agreements expiring through July 2021. The amount of lease payments made under these agreements for the years ended December 31, 2016 and 2015, totaled \$7,381 and \$6,906. Minimum annual rental commitments are as follows as of December 31:

2017	\$	7,346
2018		7,346
2019		7,346
2020		3,406
2021		1,527

NOTE 6 – RETIREMENT PLAN

Crestview Water and Sanitation District provides retirement benefits for all of its full-time employees through a joint contributory, defined contribution plan in the Colorado County Officials and Employees Retirement Association as authorized by Colorado Revised Statute 24-54-101. The Colorado County Officials and Employees Retirement Association plan is maintained and operated pursuant to Colorado Revised Statutes 24-54-102 through 24-54-112 and issues a publicly available financial report that includes financial statements and required supplementary information.

Benefits depend upon the sum of the employee's contributions to the plan plus accumulated earnings, and the District's contribution plus accumulated earnings. At retirement, a participant is entitled to receive:

- (a) An amount equal to his or her own contributions plus net earnings.
- (b) The portion of the balance in the Trust Fund vested in him or her.

The contribution rate is 6% for the employees and 6% for the District of the employee's base payroll. The District's total payroll for 2016 and 2015 was \$1,049,537 and \$898,025 and contributions were based on a payroll of \$1,016,666 and \$871,939. Both the District and the covered employees made the required contributions for 2016 and 2015 of \$92,847 and \$92,890. In addition, employees made voluntary contributions of \$15,776 and \$19,646 for the years ended December 31, 2016 and 2015.
